Safety Instructions

- Read the instruction guides for the lift and lifting accessories before use.
- Plan the lifting operation carefully.
- Check to ensure that the sling's strap loops are correctly fastened to the sling bar hooks when the sling strap is extended, but before the patient is lifted from the underlying surface.
- Personnel using the lift are informed of the correct operation and use of the lift.
- Maximum load: Viking M 205 kg (450 lbs.)
Viking L 250 kg (550 lbs.)
Viking XL 300 kg (660 lbs.)

To retain max. load it is essential to use accessories rated for the same max. load or greater.

Important! This quick reference guide does not replace the lift's instruction guide, which can be downloaded at www.liko.com.
