

## **NHS Greater Glasgow and Clyde, Medical Staff Bank**

Thank you for your interest in joining the NHSGGC Medical Staff Bank.

The Medical Staff Bank provides temporary medical staffing cover for all NHSGGC Hospitals, across all training and non training grades and specialities.

We strive to offer our bank doctors flexibility and choice - you'll have access to rewarding, relevant medical bank placements across NHSGGC that reflect the type and level of work you want to do. We help the hospitals across NHSGGC to attract the right doctors for the job when and where they are needed most.

All eligible doctors currently employed within NHSGGC will be able to sign up to work in the specialty of their own choice.

Doctors registered with the NHSGGC medical staff bank will be able to make themselves available to work in one or more specialties, according to their preferences.

Medical bank doctors will have passed our compliance check standards which ensure those doctors registered with us are of the highest quality and the level of patient care they provide when undertaking bank work will be of the highest standard.

Your application to join the NHSGGC Medical Bank, if successful, means that you will be registered for available bank shifts which match your work preferences as well as your skills and experience.

Our fast track application process will aim to get you through the registration process as quickly as possible and our dedicated team of NHS Medical Staff Bank Coordinators will work closely with you to support you through the process. Once you have been approved they will work with you on a regular basis to match bank shifts that match your work preferences.
