19. BRIEF UPDATE FROM EACH ADVISORY COMMITTEE ON SALIENT BUSINESS POINTS & APPROVED MINUTES TO NOTE

Members were asked to note salient business items discussed recently by the respective Advisory Committees as well as their most recent approved sets of minutes. The following points were highlighted:-

- AOC – It was noted that there were differing practices by Health Boards on cataract surgery. Within NHS GGC, this was programme led within Gartnavel General Hospital. In addition it was noted that the Golden Jubilee National Hospital had its own system. Some difficulties experienced with the electronic referral system were highlighted - especially electronic payment (which is a problem nationally).

- AAHP & HS – it was noted that some concerns had been raised in respect of draft clinical supervision policy and comments sent to lead author. The Committee had also considered the Active and Independent Living Programme and the national work streams around MSK. The Committee had discussed ‘Ready to Act – Plan for Children’ with a very positive overview of long term care and the high level of support from AHP staff. There was potential for a difficult transition into adult services. It was noted that there was improved engagement with Healthcare Scientists and it had been decided to keep both disciplines together within one committee given the shared learning opportunities for the foreseeable future. The Nurse Director had committed to attend AAHP & HCS.

- AMC – It was noted that the AMC had reviewed unscheduled care and queuing theory. The AMC had discussed GP vacancy rates and the issues which arose in recruitment of GPs. There had been a presentation from representatives from Sandyford which focussed on the possible unintended consequences on GPs. Given this, the AMC had requested a copy of the strategy document from the Sandyford for AMC feedback and review. There had been concern at GP Sub-Committee in respect of the Clinical Senate in respect of the need for Committee oversight in policy decision making. Mr A Taylor had written to the Medical Director in this regard, and this issue would come back to the ACF for further consideration/ request to the Medical Director for an overview of the Clinical Senate.

- ADC - the ongoing engagement between the Committee and the General Manager at the Dental Hospital was noted.

- ApsyC – It was noted that Ms A Espie elected as new Chair and Ms McGillivray as Vice Chair.

- APC - noted that a motion was agreed to change the APC constitution and that there would be new intake of members.

- ANMC – noted that the Care Assurance System (CAS) was reviewed, and the difficulties experienced in transferring this throughout the NHSGGC Board area. It had been noted that although the number of standards to be met was high, these were often already being met although not formally badged. The transition from the old to the new system was ongoing and work was being carried out to streamline the process. Dr Cameron noted the multi-disciplinary nature of CAS, and it was agreed that the Committee would invite the Nurse Director to provide an overview.
