MSc ADVANCED CLINICAL PRACTITIONER (NEONATAL OR CHILD OR ADULT)

www.uws.ac.uk/advancedclinicalpractitioner

^HESA performance indicator 2015/16
*Research Excellence Framework 2014
This programme has been developed for experienced nurses and allied health professionals and aims to create graduates who have the ability to adapt and respond to the evolving advanced practice role within a variety of clinical settings across specialisms. Each candidate should be employed within the clinical speciality pathway they chose.

ABOUT THE PROGRAMME

This exciting course provides an opportunity for nurses and allied health care professionals to explore the developing role of the Advanced Practitioner. The course explores dimensions of advanced practice through the four pillars of Advanced Practice: Clinical Practice, Leadership, Facilitation of Learning & Evidence, Research and Development which are all threaded throughout the programme.

Modules for the programme

Each module will be contextualised to the student’s area of clinical practice/specialism:

**PG Certificate (3 core modules)** –
- Anatomy, physiology and pathophysiology in advanced practice;
- Assessment and decision making in advanced practice;
- Advanced Clinical Practice

**PG Diploma (2 core modules)** –
- Research for health and social care (core);
- Prescribing in advanced practice (core unless professionally not relevant for AHPs – this will be replaced by another option module);

**MSc** –
- Research and enquiry dissertation.
Entry
- Applicants should normally possess a relevant first degree or equivalent at SCQF level 9
- Possess a relevant nursing or AHP qualification and have registration with the appropriate professional body
- Normally have a minimum of 3 years’ experience

Campus
This programme is taught using a blended learning approach with online delivery and face-to-face sessions at the Hamilton Campus or Paisley Campus.

Intake
September

Duration
Part-time normally three years. Full-time options may be considered.
