

**Artist**  
**East Pollokshields Health & Social Care Centre**

Anderson Bell & Christie Architects supported by NHS Greater Glasgow and Clyde CHP South Sector seeks to contract a freelance Artist to research and develop a proposal for a series of external and internal screens within the architecture and interior of the New East Pollokshields Health & Social Care Centre.

The commissioners require the proposal (Phase 1) to be developed via an art, architecture and health dialogue with service users and providers and community partners by the end of August 2013. The expected completion date for the screens is March 2014.

It is important that applicants have previous experience of working as a Public Artist and that there is commitment or previous experience with the integration of public art and design initiatives which catalyze positive mental health and wellbeing for patients, visitors and staff working in and using healthcare facilities in diverse communities.

**Phase 1:** The role will require experience and skills in: art and therapeutic design visioning involving service users, staff and the local community. The presentation of an illustrated proposal. *Please note at this stage there will be limited opportunity to influence the building design which is near complete.*

**Phase 2:** Subject to approval the proposal will progress to implementation (Phase 2). For this phase the Artist will need proven artistic and project management skills to oversee successful production and install of the proposal
