

Greater Glasgow NHS Board

Board Meeting
18 November 2003

Board Paper No 03/68

Chief Executive, Yorkhill NHS Trust

Decontamination Business Case

Recommendation:

The NHS Board is asked to endorse the submission of the Decontamination Business Case to the SEHD's Capital Investment Group for consideration.

Background:

The attached paper and summary of the Business Case for a pan-Greater Glasgow Decontamination/Theatre Sterile Supplies Unit (TSSU) was discussed by NHS Board Members at the seminar on Tuesday 4 November 2003.

To assist with the timing of the submission of the Business Case to the Scottish Executive Health Department's Capital Investment Group so it could be considered at the November meeting, the NHS Board Members agreed to approve the submission of the Business Case, subject to the NHS Board approving that action at its November meeting. The proposed scheme was included in the Capital Update Report submitted to the NHS Board meeting on 21 October 2003.

The NHS Board is asked to endorse the submission of the Decontamination Business Case to the SEHD Capital Investment Group for consideration.
