How to access content

All content from this CAB should be available electronically to all NHS Scotland staff. All online resources and some journal articles are provided free from the publisher. Most journal articles will require a NES Knowledge Network Athens username and password. Visit www.knowledge.scot.nhs.uk to register for an Athens username and password.

To obtain a copy of an article:
1. click on the link (which should take you to the table of contents for that issue*),
2. select the article (by author, title or page number), and
3. log in / sign in using your Athens account (if required).

* occasionally this is not possible and you will be re-directed to the Knowledge Network where you can search for the article.

To obtain a copy of an online resource, simply, click on the link.

If you experience any problems accessing content, or if you would like further information about our other alert services and our associated training please contact the PHRU Information Management team.

**Articles:**

**Cardiovascular Health**

**Article Title:** Health-related quality of life and risk factor control: the importance of educational level in prevention of cardiovascular diseases.

**Author(s):** Ose, D. *et al*

**Journal:** European Journal of Public Health 24 (4): 679-

**Synopsis:** This article explores the relationship between education level and cardiovascular disease prevention.

**Drugs and Alcohol**

**Article Title:** The alcohol industry, charities and policy influence in the UK.

**Author(s):** Lyness, S. M. and McCambridge, J.

**Journal:** European Journal of Public Health 24 (4): 557-

**Synopsis:** This article explores the relationship between the alcohol industry and charities and whether this may be used to influence policy.

**Article Title:** Youth exposure to alcohol advertising on television in the UK, the Netherlands and Germany.

**Author(s):** Patil, S. *et al*

**Journal:** European Journal of Public Health 24 (4): 561-

**Synopsis:** This article explores the prevalence of alcohol advertising to which young people are exposed.

**Article Title:** The beliefs about pros and cons of drinking and intention to change among hazardous and moderate alcohol users: a population-based cross-sectional study.

**Author(s):** Ansker, F. G., Helgason, A. R. and Ahacic, K.

**Journal:** European Journal of Public Health 24 (4): 566-

**Synopsis:** This article examines drinker’s beliefs surrounding alcohol and their intentions to change their drinking habits.
Article Title: How should we measure addiction recovery? Analysis of service provider perspectives using online Delphi groups.
Author(s): Neale, J. et al
Journal: Drugs: education, prevention and policy 21 (4): 310-
Synopsis: This article explores methods of measuring addiction recovery.

Article Title: Service user, family and friends’ views on the meaning of a ‘good outcome’ of treatment for an addiction problem.
Author(s): Thurgood, S. et al
Journal: Drugs: education, prevention and policy 21 (4): 324-
Synopsis: This article investigates the views of addiction service users, family and friends, as to what constitutes a good outcome for the treatment of substance misuse.

Immunisation

Article Title: Needle-free jet injection for administration of influenza vaccine: a randomised non-inferiority trial.
Author(s): McAllister, L. et al
Journal: Lancet 384 (9944): 674-
Synopsis: This article explores the use of a needle-free jet injection compared with a needle and syringe to administer the influenza vaccine.

Inequalities

Article Title: Deprivation and health risk indicators in full-time permanent workers.
Author(s): Gusto, G. et al
Journal: European Journal of Public Health 24 (4): 585-
Synopsis: This article examines how levels of deprivation affect the health of full-time permanent employees.
Article Title: Does social disadvantage over the life-course account for alcohol and tobacco use in Irish people? Birth cohort study.
Author(s): Das-Munshi, J et al
Journal: European Journal of Public Health 24 (4): 594-
Synopsis: This article explores the adult health of second-generation minority immigrants.

Article Title: Social and economic conditions in childhood and the progression of functional health problems from midlife into old age.
Author(s): Agahi, N., Shaw, B. and Fors, S.
Journal: Journal of Epidemiology and Community Health 68 (8): 734-
Synopsis: This article examines the relationship between childhood living conditions and subsequent health later in life.

Article Title: Flexible employment, flexible eating and health risks.
Author(s): Dixon, J. et al
Journal: Critical Public Health 24 (4): 461-
Synopsis: This article explores risks to public health from working patterns.

Injury Prevention

Article Title: Are parents following the recommendations for keeping children younger than 2 years rear facing during motor vehicle travel?
Author(s): O'Neil, J. et al
Journal: Injury Prevention 20 (4): 226-
Synopsis: This article describes an observational study which took place in Indiana looking at the prevalence of rear facing car seats for children up to the age of 2.

Mental Health

Article Title: With a little help from FUN FRIENDS young children can overcome anxiety.
Author(s): Carlyle, D.
Journal: Community Practitioner 87 (8): 26-
Synopsis: This article examines a group intervention designed to increase young children’s resilience and decrease anxiety.
Morbidity and Mortality

Article Title: An examination of the association between premature mortality and life expectancy among men in Europe.
Author(s): White, A. et al
Journal: European Journal of Public Health 24 (4): 673-
Synopsis: This article explores how premature mortality affects life expectancy in men.

Article Title: Stressful social relations and mortality: a prospective cohort study.
Author(s): Lund, R. et al
Journal: Journal of Epidemiology and Community Health 68 (8): 720-
Synopsis: This article explores the relationship between stressful social relations in private life and all-cause mortality.

Article Title: Fruit and vegetable consumption and mortality from all causes, cardiovascular disease, and cancer: systematic review and dose-response meta-analysis of prospective cohort studies.
Author(s): Wang, X. et al
Journal: BMJ 2014;349:g4490
Synopsis: This article examines the relationship between fruit and vegetable consumption and mortality from different diseases.

Article Title: Contribution of six risk factors to achieving the 25×25 non-communicable disease mortality reduction target: a modelling study.
Author(s): Kontis, V. et al
Journal: Lancet 384 (9941): 427-
Synopsis: This article estimates what contribution achieving targets in tobacco and alcohol use, salt intake, obesity, raised blood pressure and glucose would have on mortality rates.
**Nutrition**

**Article Title:** Connecting food, well-being and environmental sustainability: towards an integrative public health nutrition.

**Author(s):** Carlise, S. and Hanlon, P.

**Synopsis:** This article explores the need for an integrative approach to public health nutrition.

[Return to contents page](#)

**Obesity**

**Article Title:** Associations between obesogenic risk and depressive symptomatology in Australian adolescents: a cross-sectional study.

**Author(s):** Hoare, E. *et al*

**Journal:** Journal of Epidemiology and Community Health 68 (8): 767.

**Synopsis:** This article investigates the association between obesity and depression in Australian teenagers.

**Article Title:** Unhealthy food, integrated marketing communication and power: a critical analysis.

**Author(s):** Jackson, M. *et al*

**Journal:** Critical Public Health 24 (4): 489.

**Synopsis:** This article examines the marketing of unhealthy food to children and adolescents.

[Return to contents page](#)

**Older People**

**Article Title:** Changes in household, transport and recreational physical activity and television viewing time across the transition to retirement: longitudinal evidence from the EPIC-Norfolk cohort.

**Author(s):** Barnett, I. *et al*

**Journal:** Journal of Epidemiology and Community Health 68 (8): 747.

**Synopsis:** This article explores the impact of retirement on sedentary behaviour.

[Return to contents page](#)
Physical Activity

Article Title: Parental factors in children’s active transport to school.
Author(s): Henne, H. M. et al
Journal: Public Health 28 (7): 643-
Synopsis: This article investigates influencing factors in how children get to school.

Article Title: Associations between active commuting, body fat, and body mass index: population based, cross sectional study in the United Kingdom.
Author(s): Flint, E.; Cummins, S. and Sacker, A.
Journal: BMJ 2014;349:g4887
Synopsis: This article explored the relationship between active commuting and health.

Screening

Article Title: Hepatitis C testing for people who inject drugs in the United Kingdom: Why is uptake so low?
Author(s): Harris, M.; McDonald, B. and Rhodes, T.
Journal: Drugs: education, prevention and policy 21 (4): 333-
Synopsis: This article explores barriers to the uptake of Hepatitis C testing among injecting drug users.

Sexual Health

Article Title: Using process data to understand outcomes in sexual health promotion: an example from a review of school-based programmes to prevent sexually transmitted infections.
Author(s): Shepherd, J. et al
Journal: Health Education Research 29 (4): 566-
Synopsis: This article discusses the evaluation of school-based sexual health interventions.

Article Title: Elevated teenage conception risk amongst looked after children; a national audit.
Author(s): Craine, N. et al
Journal: Public Health 28 (7): 668-
Synopsis: This article examines data from the Empower To Choose audit on teenage pregnancy.
Article Title: Long Live Love. The implementation of a school-based sex-education program in the Netherlands.
Author(s): Schutte, L.
Synopsis: This article explores supporting and obstructing factors in the implementation of a school-based sex education program.

Smoking

Article Title: E- cigarettes: threat or opportunity?
Author(s): Gilmore, A. and Hartwell, G.
Synopsis: This editorial explores the issues surrounding e-cigarettes.

Article Title: The perceptions of UK youth of branded and standardized, ‘plain’ cigarette packaging.
Author(s): Hammond, D. et al
Synopsis: This article examines the effects of tobacco packaging and the appeal of the tobacco product.

Article Title: Equity impact of European individual-level smoking cessation interventions to reduce smoking in adults: a systematic review.
Author(s): Brown, T.; Platt, S. and Amos, A.
Synopsis: This article examines the effectiveness of targeted smoking cessation interventions.

Article Title: Prison tobacco control policies and deaths from smoking in United States prisons: population based retrospective analysis.
Author(s): Binswanger, I. A. et al
Journal: BMJ 2014;349:g4542
Synopsis: This article examines smoking related mortality in prisons and whether smoking bans are associated with reductions in smoking related deaths.
Women’s Health

Article Title: Women's wellbeing following childbirth: voices from Caerphilly.
Author(s): Salter, L.; Evans, J. and Hardy, B.
Synopsis: This article examines the effectiveness of a pilot project designed to improve postnatal wellbeing.
