

OLDER PEOPLE'S PLANNING FRAMEWORK 2014-15 UPDATE

Relevant changes to the national and local context

- **National context key changes:**
 - Public Bodies (Joint Working) Bill;
 - Draft Scottish Budget 2014/15 announcing changes to the Change Fund post 2015.
- **NHSGGC context:**
 - Clinical Services Review - older people's service model.

Areas which require additional or particular focus for year 2

- **Joint Strategic Commissioning Plans:**
 - further development of JSCPs to include:
 - metrics showing delivery of NHSGGC targets for bed days lost, delayed discharges and use of acute beds;
 - impact of changes in JSCPs/Change Fund programmes in improving personal outcomes for individuals;
 - development of housing options.
- **Change Fund:**
 - evaluation of impact of change fund programmes in reducing delays and use of acute hospital beds;
 - development of plans for continuation or otherwise of programmes post 2015.
- **Clinical Services Review:**
 - identifying frail elderly patients in all settings, and delivering comprehensive geriatric assessment;
 - ensuring that anticipatory care approaches include frail elderly and address function, mobility, cognitive impairment and carer/support;
 - continuing to develop and implement specific pathways for falls and dementia;
 - learning from step up / step down pilots to define a sustainable and affordable future model;
 - supporting the CSR development programme to ensure that existing developments are linked in.
