How to access content

All content from this CAB should be available electronically to all NHS Scotland staff. All online resources and some journal articles are provided free from the publisher. Most journal articles will require a NES Knowledge Network Athens username and password. Visit www.knowledge.scot.nhs.uk to register for an Athens username and password.

To obtain a copy of an article:
1. click on the link (which should take you to the table of contents for that issue*),
2. select the article (by author, title or page number), and
3. log in / sign in using your Athens account (if required).
* occasionally this is not possible and you will be re-directed to the Knowledge Network where you can search for the article.

To obtain a copy of an online resource, simply, click on the link.

If you experience any problems accessing content, or if you would like further information about our other alert services and our associated training please contact the PHRU Information Management team.
