

Core brief

Monday 16 May 2016

Introduction

This issue provides information on the new Human Resources Support and Advice Unit becoming operational today.

Human Resources Support and Advice Unit Opens

Following on from the successful launch of HRConnect, and our Human Resources teams coming together at West Glasgow ACH last week, we are delighted to announce that our new Human Resources Support and Advice Unit becomes operational from today.

The new Unit provides a single point of access for managers and staff within NHS Greater Glasgow and Clyde, with expert, consistent and customer focussed advice and support provided by professionally qualified Human Resources staff.

To contact the Unit call our HR Helpline number 0141 278 2700 or email us on Hr.Support@ggc.scot.nhs.uk. This contact number will also get you through to Recruitment; Health and Safety; and Learning and Education. Contact details for all of our other specialist services are available on [HRConnect](#).

Recruitment; Staff Bank; and Interpreting Services, currently based at the Modular Unit, Gartnavel Royal Hospital are set to join the rest of the team at West Glasgow ACH in July 2016.

In addition, our programme of Roadshows started last week and will run on various sites across the Board this week and next. [Click here](#) for further details.
