## Introduction

This issue details an NHSGGC press release on waiting times for young people with mental health issues improving and reminds staff to be security aware.

---

## Waiting times for young people with mental health issues improves

Children and young people with mental health issues in NHS Greater Glasgow and Clyde are being seen quicker than ever before, according to new figures released this week.

The Children and Adolescents Mental Health Services (CAMHS) saw 99% of patients within the Scottish Government's target of 18 weeks. Only four health boards in the country achieved 99% or 100%. [Click here to read the full press release.](#)

## All staff are reminded of their security responsibilities and to be security aware:

- Always wear your ID badge\* while on NHS premises
- Be aware when using coded entries always make sure security doors are shut and not left open
- Don't hold the door open for someone following you in ask for ID if they don't have any don't let them in
- Never assume that a stranger in a building is a member of staff
- Report any unattended bags or items
- Be alert
