

Core brief

Thursday 21 February 2019

Introduction

This issue of Core Brief details information on winners at the Digital Health and Care Awards; Meet the Nurse Director events; and the next MFT staff event.

Digital Health and Care Awards

Congratulations to William Edwards, Director of eHealth who picked up the Digital Leader award at last night's Digital Health and Care Awards in Edinburgh. The award recognises someone who has played a key role in creating the environment and culture that makes large scale digital transformation of health and care services possible.

We also scooped the Accessing Mental Health Care Award category with our Beating the Blues Team (BBT) who reach out to people who suffer from mild to moderate mental health issues, helping them to access specialised care.

Meet the Nurse Director

Dr Margaret McGuire, our Nurse Director, invites you to meet her and hear about ongoing work, opportunities and priorities within NHSGGC and nationally. In addition, these 45 minute sessions will offer staff the opportunity to discuss issues important to them and share and learn from each other. These informal sessions will provide feedback from staff and will help us to work together in order to improve care for our patients and communities.

Please see the meeting schedule below, no need to book a place, attend a venue to suit.
