90 Minute Leadership

OD recognise the challenges our leaders have in managing time constraints and setting aside time for development activities. Short, intensive development sessions can be a useful way of learning. Rather than spending a full day covering a relatively wide range of topics, our “90 Minute” leadership sessions will focus on specific topics, concentrating on key issues rather than the broader picture.

The next session is:

“Coaching As A Leadership Style”

Want to have powerful conversations, even when time is limited? Committed to leading by example and making an impact? Keen to enable others to find solutions for themselves? Looking to make meetings more productive?

This highly interactive session will cover:

- Research on leadership styles
- The value of the coaching style & what it looks like in action
- The power of enabling questions
- Tools and techniques to role model and integrate coaching as a leadership style

It is particularly useful for leaders who wish to improve delegation, role model a coaching style and achieve outstanding results. Participants will acquire a set of powerful questions to fuel impactful conversations and identify a specific discussion where elements can be applied to heighten the quality of a forthcoming interaction.

Who will benefit from attending the session?

This session is ideal for anyone who wants to effectively engage others through quality conversations that promote thinking, provoke action and encourage personal accountability.
