

NHS Greater Glasgow & Clyde

# LEaD Programme

2019 - 2020

Topics and contents focus on emotional intelligence and developing resilience, supervision and coaching, team dynamics and developing effective networks. The programme is delivered in a workshop format, one full day in the Teaching and Learning Centre on the Queen Elizabeth campus and aims to be as participatory and interactive as possible. This will allow practitioners to explore the key themes in relation to local practice as well as share experience and learn from peers.
