2019/20
Festive guide to your health services

NHS Greater Glasgow and Clyde, getting you to the

Right care  Right place  Right time

over the festive period
WHEN YOU’RE ILL, KNOW WHO TO TURN TO
Let us get you to the right care, right place, right time.

Self Care & NHS inform

For a speedy recovery, self care is the best option when you have a minor illness or injury.

A well stocked medicine cabinet means you’ll receive the right treatment immediately.

Visit NHS inform for advice when you’re feeling unwell: www.nhsinform.scot

Pharmacist

Speak to your pharmacist for advice on common ailments including coughs, colds, sore throats and stomach upsets etc. There is no need to make an appointment. Pharmacists can also help with medication that has previously been prescribed by your GP and other prescribers.

Pharmacy First is an NHSScotland service available from all community pharmacies in NHSGGC providing prompt access to effective treatments for a number of conditions.

Further information on pharmacy services can be found on pages 7 to 8. Please go to page 24 for details of pharmacies open on public holidays over the Festive Season.

GP

Contact your GP surgery as normal for any illness which requires the services of your GP Practice. If your condition really can’t wait until your surgery re-opens, contact NHS 24 on 111.

NHS 24

For immediate advice when your GP surgery or Dental Practice is closed and you’re too ill to wait until it re-opens call NHS 24. A health professional will talk to you about your symptoms and arrange for you to see a healthcare clinician, if appropriate. Call NHS 24 on 111.

Optometrist

If you have a problem with your eyes visit your local optometrist. All high street opticians have an optometrist who provides NHS services. If your optician is closed and you can’t wait until it reopens call NHS 24 on 111.

If you have an eye problem, (minor eye infections, scratches or something stuck in your eye) you should attend your nearest MIU. If you have sustained any other injury that requires immediate emergency treatment go to your nearest Emergency Department.

Children under one should attend the Royal Hospital for Children at the Queen Elizabeth University Hospital campus.
Mental health

For mental health problems contact your GP who can refer people to Community Mental Health Services in local areas. Crisis services are available for patients who are already known to Community Mental Health Services and can be contacted on the telephone numbers on page 18 of this booklet.

The out-of-hours Community Psychiatric Nurse service can be accessed directly, Monday - Friday, 8pm - 9am and Saturdays & Sundays and Public Holidays 4:30pm - 9am on 0845 650 1730 or through NHS 24 on 111.

Breathing Space is a confidential phoneline for anyone in Scotland feeling low, anxious or depressed. Call free on 0800 83 85 87

Addictions

For alcohol and drug addiction problems either self refer direct to local specialist teams or contact your GP. Crisis services are also available at the Glasgow Drug Crisis Centre. There are also various voluntary organisations operating in local areas to offer support for those who are having problems with alcohol or drug misuse. For further information, go to page 21.

Dentist

Visit your General Dental Practitioner for regular check ups, planned routine treatment and emergency care. If you have not registered with a dentist, please do so as soon as possible.

Advice and information is available by calling the Dental Advice Helpline on 0141 201 4209.

If your dental condition cannot wait until your Dental Practice re-opens, contact the dental out-of-hours service by calling NHS 24 on 111.

Minor Injuries Unit (MIU)

For urgent care of minor injuries such as cuts (including ones that need stitches), bites, suspected broken bones, sprains, minor burns and scalds, minor eye problems (including scratches and minor infections) go to: New Stobhill Hospital, New Victoria Hospital or The Vale of Leven Hospital.

Emergency Department

For accidents or serious emergencies such as strokes, heart attacks, serious head injuries and wounds requiring stitches, go to the nearest Emergency Department or call 999.

Did you know that broken bones can be treated at your local Minor Injuries Unit?
If you think you’ve broken a bone in your leg below the knee but can bear the weight through your foot, or in your arm below the shoulder, but can move your fingers then visit the MIU.
Highly experienced staff can arrange x-rays, apply plaster (if required) and make sure you get the help you need, and it’s usually faster than the Emergency Department.

NHS Greater Glasgow and Clyde, getting you to the Right care, Right place, Right time
INTRODUCTION

Your NHS is available all year round to care for you. While your GP practice and some NHS services will close on 25th and 26th of December and again on 1st and 2nd of January, the NHS continues to provide urgent care for those who need it throughout this period.

This booklet explains how and when to access these services and others over the festive period.

Please note that details of pharmacy opening hours are correct at the time of publication. You can confirm these details via the NHS Greater Glasgow and Clyde website or by calling the individual outlet, numbers are included with outlet details in this booklet.

www.nhsggc.org.uk/knowwhototurnto

Public holidays

Ill health is unwelcome at any time of year but particularly during holidays. We know it’s easy for health to drop off your to-do list when you’re really busy, so we’ve put together this short guide to help you stay well.

But if you do feel unwell, check your symptoms and find out what to do next at www.nhsinform.scot/self-help-guides

Know your GP practice and pharmacy details

On public holidays, your GP practice and pharmacy opening hours are likely to be different from normal.

It’s important to know this information so you can order and collect any repeat prescriptions you may need in plenty of time.
Check your medicine cabinet

Make sure you have some over-the-counter (OTC) remedies for common seasonal illnesses in your medicine cabinet.

Things to have in your medicine cabinet include:

- **Paracetamol and ibuprofen** for pain relief (check the label or speak to your pharmacist to check it’s suitable for you)
- **Anti-histamines** to help allergies
- **Anti-diarrhoeals** and **oral rehydration sachets** for diarrhoea
- **Indigestion remedies** such as an antacid
- **Mild laxative** for constipation
- **A first aid kit**
- **Medicines specifically for children** (your pharmacist can advise on the most suitable ones to keep in the house).

Remember that medicines go out of date, so don’t overstock your medicine cabinet. Always follow the advice on the pack, and if your symptoms continue (or are severe) get further advice.

Health information

If you’re looking for general health information then you’ll find what you are looking for by visiting: [www.nhsinform.scot](http://www.nhsinform.scot)
Prescriptions

If you are on routine/repeat medication, you should ensure that you have sufficient supplies well in advance of the festive period.

If you forget to obtain a prescription for a repeat medication and run out of important medicines, you may be able to get help from your pharmacy. Under the Urgent Supply arrangements, pharmacists may be able to issue you with a further cycle of a previously repeated medicine without having to get a prescription from your GP. If you receive stoma products from your pharmacy or other supplier and/or receive supplies such as continence products and welfare food from community services, you should ensure you have sufficient supplies as you may encounter difficulties in obtaining these over the festive period.

Minor Ailments

Pharmacists routinely provide advice and supply over the counter remedies for a wide range of ailments. In addition, the NHS Minor Ailment Service is available from all community pharmacies in Scotland.

You qualify for this service if you are registered with a GP surgery in Scotland, don’t live in a nursing or residential care home and were previously exempt from prescription charges under age, illness or income grounds. Once registered, you can have a consultation with a pharmacist without an appointment. Your pharmacist will offer you advice and may supply an appropriate medicine to treat your symptoms free of charge.

Pharmacy First

Pharmacy First is designed to utilise the accessibility and expertise of pharmacists to treat certain conditions where the patient’s ability to access prompt treatment aids recovery. Pharmacy First is available from all community pharmacies in NHSGGC and provides access to treatments for uncomplicated urinary tract infections in women aged 16 - 65 years and impetigo for those over two years of age. Patients must be registered with a GP Practice in Scotland and would normally be expected to attend the pharmacy to allow the pharmacist to assess the symptoms before deciding on whether to offer advice, treatment on the NHS or to refer to another clinician.

Please go to page 24 for detailed information on the pharmacy opening hours over the festive period
Community Pharmacy Flu Immunisation Service

For most, influenza (flu) is an unpleasant but usually self-limiting ailment. However, for older people and those aged between 18 and 65 with an ‘at risk’ clinical condition, flu carries a considerable risk of developing into a serious, more difficult illness to treat.

Flu can circulate at later times depending on the level of flu-like illness in the community. The protection offered by a ‘flu jab’ significantly reduces the risk of catching flu in the first place.

Most community pharmacies offer easy access to the ‘flu jab’ to eligible patients, on the NHS, over the winter period. An extended programme provides an opportunity for patients in these two categories to be vaccinated as long as they haven’t already had the vaccine or made an appointment with their GP surgery to have this done.

Locations of pharmacies participating in the flu service are listed on the website at www.nhsggc.org.uk/communityflujab and offers the convenience of a drop-in service and additional opportunities for eligible patients to access free NHS flu vaccinations.

Did you know you don’t always have to see your GP when you get sick?

Your local Pharmacy can treat many conditions via the Minor Ailment Service.

They can provide treatments to relieve the symptoms of:

- Allergies
- Coughs & colds
- Sore throats
- Cold sores
- Diarrhoea
- Teething
- Constipation
- Mouth ulcers
- Upset tummies
- Pain

NHS Greater Glasgow and Clyde, getting you to the

Right care  Right place  Right time

Please go to page 24 for detailed information on
the pharmacy opening hours over the festive period
GENERAL PRACTITIONER SERVICES (GPs)

Your GP practice will close on 25th and 26th of December and again on 1st and 2nd of January.

If you become unwell and cannot wait for your surgery to re-open then you can get assistance by calling NHS 24 on 111. Alternatively, you may choose to seek treatment from a local pharmacist.

Emergency GP out-of-hours service

Emergency GP out-of-hours services are provided for all practices in NHS Greater Glasgow and Clyde. To access the service, please call NHS 24 on 111. They help you get the right care, at the right place, at the right time.
MINOR AND MAJOR EMERGENCIES

Minor Injury Units (MIUs)

For minor injuries such as cuts that need stitches, suspected broken bones, sprains and minor burns, go to one of our Minor Injury Units (MIU). You are likely to get the fastest treatment for these injuries here as you will not have to wait for people with serious injuries and conditions to be treated first.

Your assessment will be carried out by a team of highly experienced staff, led by Emergency Nurse Practitioners giving you quick access to health information, advice and treatment. Treatment includes being able to arrange x-rays if required, apply plasters or splints and stitch and dress wounds.

What can be treated at a Minor Injuries Unit?

Types of injuries treated can include:

- Injuries to upper and lower limbs
- Cuts and grazes
- Sprains, bruises and wounds
- Stings and bites – human, animal and insect
- Burns and scalds
- Abscesses and wound infections
- Minor head injuries
- Broken noses and nosebleeds
- Broken bones - our experienced staff can arrange x-rays and apply plaster if required
- Eye problems - minor eye infections, scratches or something stuck in your eye
Adult MIUs are for people 16 years of age and older. For MIUs for children aged 15 or under, please see our If Your Child Needs Emergency Care, Know Where To Go section on pages 12-13.

Where to find your local MIU

We have three dedicated MIUs in NHSGGC

- New Stobhill Hospital and New Victoria Hospital, open 9am to 9pm every day of the year
- Vale of Leven Hospital, open 8am to 9pm every day of the year.

Outwith these times you should contact NHS 24 on 111.

If you have a minor illness such as a stomach upset, cough or running a high temperature then self-care, pharmacy or your GP is the answer. You should not go to an MIU for treatment. An MIU does not deal with illnesses.

Emergency Departments (A&Es)

Within NHSGGC there are five Emergency Departments that remain open all year round to treat patients who have a serious injury or medical emergency.

They are at: the Queen Elizabeth University Hospital, Royal Hospital for Children, Glasgow Royal Infirmary, the Royal Alexandra Hospital (RAH) in Paisley and Inverclyde Royal Hospital in Greenock.

It is important that Emergency Departments are reserved for their intended purpose and only used for serious injuries and major emergencies. For everything else there are local hospital based Minor Injury Units (MIUs), GP services (including out-of-hours via NHS 24) and your local pharmacy.

If you think it is an emergency phone 999.

For minor injuries such as cuts (including ones that need stitches), suspected broken bones, sprains and minor burns go to one of our locally based Minor Injury Units.

To find your nearest Emergency Department or Minor Injury Unit simply go to www.nhsggc.org.uk and enter your postcode on the ‘Find your nearest’ section
IF YOUR CHILD NEEDS EMERGENCY CARE,

The Emergency Department of the Royal Hospital for Children (RHC), the Royal Alexandra Hospital (RAH) in Paisley and Inverclyde Royal Hospital (IRH) in Greenock, are open all year round to treat children with a medical emergency or serious injury.

### Major Emergency
If your child is seriously injured or becomes so unwell that you think it is an emergency you should dial **999**.

The Scottish Ambulance Service will take your child to the RHC unless they deem it more appropriate to go to a closer Emergency Department.

### Minor Illness
#### 0-15 Years
If it is a minor illness such as a stomach upset, cough or running a high temperature then self-care, pharmacy or your GP is the answer. (See page 2 in this booklet for more information).

If your child is unwell, you should NOT take them to an MIU for treatment. An MIU does not deal with illnesses.

### Minor Injury
If your child has a minor injury such as a cut (including one that may require stitches) a minor burn or a suspected broken bone there are a range of options for speedy treatment depending on his or her age.
## Where to take your child if they have a minor injury

### If you live in Greater Glasgow

</tbody>
</table>
SEXUAL HEALTH SERVICES (SANDYFORD)

The service will be closed **25th and 26th of December** and will re-open on the 27th December.

The service will be closed again on **1st and 2nd of January** and will re-open on the 3rd January.

Further detail on Sandyford services can be found on our website: [www.sandyford.org](http://www.sandyford.org)

Most pharmacists will be able to supply emergency contraception under the NHS with many also providing access to free condoms as part of a Board wide initiative.

If you suspect an infection or feel unwell call **NHS 24 on 111**.
EYE EMERGENCIES

If you have a problem with your eyes visit your local optometrist. All high street opticians have an optometrist who provides NHS services.

If your optician is closed and you can’t wait until it reopens call NHS 24 on 111.

If you have an eye problem, (such as minor eye infections, scratches or something that is stuck in your eye) you should attend your nearest MIU. If you have sustained any other eye injury that requires immediate emergency treatment go to your nearest Emergency Department.

Children under one should attend the Royal Hospital for Children at the Queen Elizabeth University Hospital campus.
DENTISTS

For dental emergencies, call the dentist with whom you are registered. You should receive a recorded message advising you of the arrangements that have been made for emergency cover. If you have not registered with a dentist, please try to do so as soon as possible.

Advice and information is available by calling the Dental Advice Helpline: 0141 201 4209

However, if you remain unregistered and you require emergency treatment, you should contact NHS 24 on 111.

NHS 24 will act appropriately according to the situation either giving advice or arranging for a visit to the Emergency Dental Treatment Centre.

Dental emergencies are: acute dental pain, facial or oral swelling, bleeding from the mouth or trauma.
Are you a woman aged between 16 and 65 with any of the following:
• Burning or stinging sensation on passing urine?
• Need to pass urine frequently?
• Need to pass urine urgently?

Urinary Tract Infection

Do you have any of the following:
• Minor skin infection on one area of the body?
• Red sores that pop easily and leave a yellow crust?
• Fluid-filled blisters?
• Itchy rash?

Impetigo

Pharmacy First allows patients to access FREE advice and/or treatment for uncomplicated Urinary Tract Infection in women and Impetigo.

Your pharmacist will ask you about your symptoms in order to give you the right advice. **You should be aware there are some exclusions which can prevent your pharmacist from treating you and you may need to be referred to your GP.**
MENTAL HEALTH SERVICES

Crisis Services
Available 24-hours a day including weekend and public holidays and can be accessed by the numbers below from 9.00am – 8pm Monday to Friday, 9.00am – 5pm Saturdays, Sundays and Public Holidays.
Outwith these hours they can be contacted on 0845 650 1730.

Elderly and Adult Community Mental Health
Services can be accessed by the numbers below and opposite.
