Attend Anywhere Call Screen
Preferred Speaker view

- Call's elapsed time
- Participant's name
- Your service's logo
- Refresh the Call Screen and the call session
- Prompts you to either end the call for just you, or all participants
- Mute/unmute your microphone (the You tile displays an indicator while you're muted)
- Double-click any tile to open that participant's video in a separate window
- Switch your camera feed to other participants off/on (the You tile displays the camera paused image while off)
- Invite another person to the current call, via email or text message
- Share screen content with other call participants (only visible if available)
- Transfer the patient to another Waiting Area (only visible if available)
- Open the chat window
- Select a different camera, microphone, or speaker for the current call
- Change the layout of video tiles (All equal)
- Click a participant's thumbnail to move them to the main area
- When you're in a call, your image appears here
