

Reversing a camera whilst using Attend Anywhere

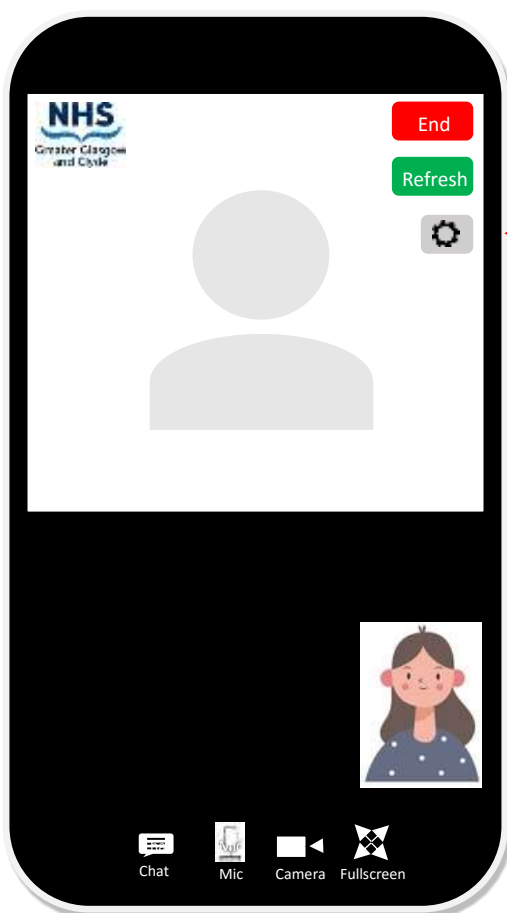

For a Parent/Carer to reverse the camera you will need to establish if they have an iPhone or android phone.

It is relatively straightforward for iPhone but there is a couple of additional steps the Parent/Carer will need to take to reverse their camera on an Android phone.

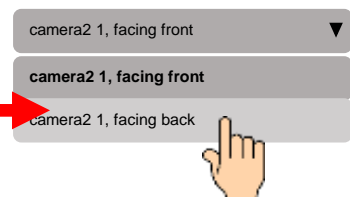

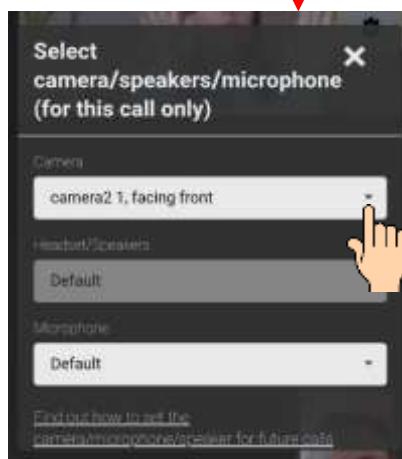

To switch to the rear camera on an iPhone you need to press the **Switch cam** at bottom of screen

Apple iPhone

To switch to the rear camera on an Android you need to press the **Settings** button at top right hand side of the screen

Android Phone
