Clinical Details:				

In-House Assays

TEST	DESCRIPTION/REQUIREMENTS	Tick Box
Anti Acetylcholine Receptor Abs (AChR)	Myasthenia Gravis 1ml Serum	
Anti GAD65 Abs associated with Stiff Person Syndrome (Glutamic Acid Decarboxylase)	GAD 1ml Serum	
Anti Ganglioside Abs	GM1, GM2, GD1a, GD1b, GQ1b (IgG & IgM) 1ml Serum	
Anti Myelin Associated Glycoprotein Abs (Anti MAG)	1ml Serum	
CSF Oligoclonal Bands	1ml Serum must accompany 1ml CSF	
LGI1 & CASPR2 Abs (Voltage Gated Potassium Channel Associated Proteins)	1ml Serum	
NMDA Receptor Abs (Anti Glutamate Receptor Abs)	1ml Serum or 1ml CSF	
Aquaporin 4 Abs (NMO) & MOG Abs	1ml Serum	
Paraneoplastic Abs (Anti Neuronal Abs)	Immunofluorescence Screen (Hu, Yo, Ri) – 1 ml Serum	
	Blot (CV2, Ma2Ta, SOX1, Amphiphysin, recoverin, Titin) – 1ml Serum	

Externally Conducted Assays (Additional Charges Apply)

TEST (1ml Serum)	Tick Box	TEST (1ml Serum)	Tick Box
AMPA1&2 and GABA Receptor Abs		MUSK Abs	
Basal Ganglia Abs		Striated Muscle	
Beta Interferon Abs		Tysabri Abs (sample MUST be delivered to the lab immediately)	
Ganglionic ACHR Abs		VEGF (Vascular Endothelial Growth Factor)	
Neurofilament Light Chain Protein in CSF (500µl CSF required. Additional request form for QMUL must be sent with sample - see Neuroimmunology website for request form.)		Paranodal Abs (Additional Oxford University request form must be completed by requesting clinician and emailed to the neuroimmunology lab – see Neuroimmunology website for request form.)	
Voltage Gated Calcium Channel Abs		Gliadin Abs	
Glycine Receptor Abs			
Other Tests (please contact the laboratory to discuss)			

Any surplus sample may be retained for future diagnostic, quality control, teaching or research purposes as approved by the West of Scotland Research Ethics Committee unless we are instructed to destroy it.

PLEASE REFER TO T&C's ON WEBSITE OR LAB HANDBOOK BEFORE SENDING SAMPLES
